A muscle car is by definition an American-made car typically with two-doors and a hard top fitted with a V-8 engine. Though some muscle cars do have four doors and some may even be convertibles, two things are a must. They must be American-made and they must have a V-8 engine. The engine is the most important component of a muscle car.

Since their introduction in 1964, American muscle cars have been closely associated with masculinity. In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women ' s admiration and passion for American muscle, and reveals how restoring, showing and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

This is the muscle car history to own--a richly illustrated chronicle of America's greatest high-performance cars, told from their 1960s beginning through the present day! In the 1960s, three incendiary ingredients--developing V-8 engine technology, a culture consumed by the need for speed, and 75 million baby boomers entering the auto market--exploded in the form of the factory muscle car. The resulting vehicles, brutal machines unlike any the world had seen before or will ever see again, defined the sex, drugs, and rock 'n' roll generation. American Muscle Cars chronicles this tumultuous period of American history through the primary tool Americans use to define themselves: their automobiles. From the street-racing hot rod culture that emerged following World War II through the new breed of muscle cars still emerging from Detroit today, this book brings to life the history of the American muscle car. When Pontiac's chief engineer, John Z. DeLorean, and his team bolted a big-inch engine into the division's intermediate chassis, they immediately invented the classic muscle car. In those 20 minutes it took Bill Collins and Russ Gee to bolt a 389 ci V-8 engine into a Tempest chassis they created the prototype for Pontiac's GTO--and changed the course of automotive history. From that moment on, American performance cars would never be the same. American Muscle Cars tells the story of the most desirable cars ever to come out of Detroit. It's a story of flat-out insanity told at full throttle and illustrated with beautiful photography.

Global Problems, Global Solutions: Prospects for a Better World by JoAnn Chirico approaches social problems from a global perspective with an emphasis on using one ' s sociological imagination. Perfect for instructors who involve students in research, this text connects problems borne by individuals to regional, global, and historical forces, and stresses the importance of evidence in forming opinions and policies addressing social issues. The book introduces readers to the complexities of the major problems that confront us today such as violent conflict, poverty, climate change, human trafficking and other issues that we encounter in our lives. It book concludes with a chapter on politics and government, underscoring the need for good governance at all levels –and cooperation among many layers of government –to build a better world.

Since their introduction in 1964, American muscle cars have been closely associated with masculinity. In the 21st century, women have been a growing presence in the muscle car world, exhibiting at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Gathered from the experiences of 88 female auto enthusiasts, this book highlights their admiration and passion for American muscle, and reveals how restoring and showing classic cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

In the late '50s and very early '60s American car manufacturers decided to put big, powerful engines into their regular production models - upon doing so a completely new genre of motor car was born - the American Muscle Car! This collection are a few of my favorites from the '90s through to today's current muscle car models. Next to each of the carefully selected models are some interesting facts about these special cars. Here are some of the cars featured in this coloring book: Dodge Challenger SRT Hellcat (2019) Chevrolet Camaro ZL1 (2016) Ford Mustang Shelby GT 500 (2019) Cadillac CTS-V (2004) Equus Bass 770 (2013) Ford GT (2016) Dodge RAM SRT-10 (2004) Jeep Grand Cherokee SRT Trackhawk (2018) Ford F-150 Raptor (2010) Dodge Charger SRT Hellcat "Widebody" (2020) Chevrolet Corvette Z06 (2014) Dodge Viper (1991) For each of the cars there is a smaller 'test' picture for you to test your colors before you get to work on the main drawing. Have fun! Book size is 8.5" x 11" There are blank pages behind each image to ensure no color 'bleed' through Each car is accompanied by some interesting and informative detail Makes a great and exciting gift for ANY muscle car enthusiast Cars featured are from a '90s Dodge Viper through to 2020's current muscle car models Please check out my other book in this series - Greatest American Muscle Cars - Classic Edition

Founded in 1957, Chase's observes its 60th anniversary with the 2018 edition! Users will find everything worth knowing and celebrating for each day of the year: 12,500 holidays, historical milestones, famous birthdays, festivals, sporting events and much more. "One of the most impressive reference volumes in the world."--Publishers Weekly.

In his Gettysburg Address, Abraham Lincoln promised that the nation ' s sacrifices during the Civil War would lead to a " new birth of freedom. " Lincoln ' s Unfinished Work analyzes how the United States has attempted to realize—or subvert—that promise over the past century and a half. The volume is not solely about Lincoln, or the immediate unfinished work of Reconstruction, or the broader unfinished work of America coming to terms with its tangled history of race; it investigates all three topics. The book opens with an essay by Richard Carwardine, who explores Lincoln ' s distinctive sense of humor. Later in the volume, Stephen Kantrowitz examines the limitations of Lincoln ' s Native American policy, while James W. Loewen discusses how textbooks regularly downplay the sixteenth president ' s antislavery convictions. Lawrence T. McDonnell looks at the role of poor Blacks and whites in the disintegration of the Confederacy. Eric Foner provides an overview of the Constitution-shattering impact of the Civil War amendments. Essays by J. William Harris and Jerald Podair examine the fate of Lincoln ' s ideas about land distribution to freedpeople.

Gregory P. Downs focuses on the structural limitations that Republicans faced in their efforts to control racist violence during Reconstruction. Adrienne Petty and Mark Schultz argue that Black land ownership in the post-Reconstruction South persisted at surprisingly high rates. Rhondda Robinson Thomas examines the role of convict labor in the construction of Clemson University, the site of the conference from which this book evolved. Other essays look at events in the twentieth and twenty-first centuries. Randall J. Stephens analyzes the political conservatism of white evangelical Christianity. Peter Eisenstadt uses the career of Jackie Robinson to explore the meanings of integration. Joshua Casmir Catalano and Briana Pocratsky examine the debased state of public history on the airwaves, particularly as purveyed by the History Channel. Gavin Wright rounds out the volume with a striking political and economic analysis of the collapse of the Democratic Party in the South. Taken together, the essays in this volume offer a far-reaching, thought-provoking exploration of the unfinished work of democracy, particularly as it pertains to the legacy of slavery and white supremacy in America.

The world's most popular book of the mighty American cars of the 1960s and 70s is back and better than ever.
