Often, mine operations leach older mill tailings of suitably high enough residual copper content in situ. Since the mid 1980s, the industry has increasingly used a leach-solvent extraction-electrowinning process (SX-EW) for extracting copper from oxidized ores and mine wastes (U.S. EPA, August 1994b). The process reduces the reliance

A REMOTE SENSING AND GIS METHOD FOR DETECTING LAND SURFACE ...

In this study, rock mass properties, blasthole parameters, powder factor (q), and fragment size distribution of blasted rock using image analysis technique were determined for several blasting operations in different zones of Sungun open pit copper mine, Rashakan limestone mine, Soufian limestone mine, and Golgohar open pit iron mine. The ...
