Sunderland was once one of Britain's industrial giants. Famous for its shipyards, mines and glass-making, it thrived at a time when its country needed it most. After the Second World War the town saw incredible change, as the heavy industry that seemed so permanent, faded and died. How do you cope with the loss of centuries of working tradition?

These are the stories of the people who worked through this evolution, watched their town change around them and become a city – the people who saw the end of one era and the beginning of a challenging new one.

Explore the secret history of Sunderland through a fascinating selection of stories, facts and photographs.

Spanning 150 years of South Shields ' changing fortunes, A Tyneside Heritage is a pioneering work of interwoven local and family history. After the nineteenth-century boom years of coal exporting and shipbuilding for global markets came the First World War, then the mass unemployment and political turbulence of the 1930s. Luftwaffe bombing in the Second World War was followed by the peacetime challenge of attracting new industrial development. Against this background, four generations of the Chapman family played a leading role in the town and in County Durham as businessmen, soldiers, borough councillors, sportsmen, philanthropists and representatives of royalty.

A History of Sunderland deals in a lucid manner with the fascinating story of human activity on Wearside, a story that begins thousands of years ago when the Sunderland area was covered in dense woodland and Stone Age hunter-gatherers were at large. Subsequently, the Romans came and were followed by monks who transformed Wearmouth into a place of renown, best known for its associations with the famous scholar, Bede. During the Middle Ages, Sunderland became a borough and was affected by Scottish raids and the Black Death. In the Tudor period, it was described as 'in great decay of buildings and inhabitants', but change was at hand. The development of industry, particularly the coal trade, brought about a transformation- Sunderland began to thrive and its population grew. As the 18th century drew to a close, Sunderland's shipbuilding industry began a remarkable process of expansion, adding to the town's prosperity. But prosperity was not enjoyed by all. Some residents led lives blighted by grinding poverty in parts of Sunderland infamous for filth and squalor. Poverty was again prevalent during the Depression, when Sunderland had an unen-viable reputation for high unemploy-ment and overcrowding. The Second World War brought work, but it also brought death and destruction, and in the post-war years Sunderland witnessed remarkable house building programmes aimed at addressing its shortage of decent accommodation. Many other changes have occurred, such as the end of traditional heavy industries, the establishment of Nissan, and the granting of city status in 1992. 'There was a real need for a scholarly, readable, overall history of the city from its origins. Tom Corfe gave us one over twenty years ago, and now we ... [have] another, with new insights and up-to-date information.' Geoffrey Milburn- former Senior Lecturer in History, Sunderland Polytechnic. Illustrated throughout with 125 black and white images.

On an expedition in Wales to eradicate the devastating giant hogweed, Peter Shandy and the faculty members of the Balaclava Agricultural College stumble across time and into the medieval ages when knighthood--and hogweed--flourished

For the first time, this in-depth study explores the history behind the construction of the famous 'Sunderland cottages'.

**NEW YORK TIMES BESTSELLER** The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The first full account of Jupiter for 35 years - comprehensive, accessible and highly illustrated.

Explores a decade of great change in South Shields in the 1950s.
